

GRACE Science Data System Monthly Report

November 2012

Prepared by:
Frank Flechtner GFZ flechtne@gfz-potsdam.de

Contributions by:
Srinivas Bettadpur UTCSR srinivas@csr.utexas.edu
Mike Watkins JPL michael.m.watkins@jpl.nasa.gov
Gerhard Kruizinga JPL gerhard.kruizinga@jpl.nasa.gov

Approved by:
Byron Tapley UTCSR tapley@csr.utexas.edu

Highlights:

- Generation and delivery of RL05 Level-2 products for November and December 2012 not yet completed. Please refer to the upcoming December 2012 newsletter.
- Still missing Level-2 RL05 products for 2002 of the three centers (see tables below) will be provided soon. Please refer to the upcoming newsletters.
- The GRACE Science Team Meeting 2013 will take place 23-25 October 2013 at UTCSR. Further information will follow at <http://www.csr.utexas.edu/grace/GSTM>.

Satellite Science Relevant Events:

- Operations in Science Mode throughout the month except for the periods highlighted in the L1B Data Processing section below.
- The actual mission status can be monitored at http://www.csr.utexas.edu/grace/operations/mission_status/.
- The GRACE-1 Brouwer mean orbital elements on December 1, 2012 00:00:00 are as follows:
A [m] = 6817551.038
E [-] = 0.001237
I [°] = 89.019666
- The satellites separation was 255 km on November 30, 2012 with a rate of -0.35 km/d. The next orbit maneuver will be needed approximately end of March 2013.

Level-0 raw data dump reception statistics at DLR ground stations Weilheim and Neustrelitz:

GRACE-A Housekeeping:	100.0 %	GRACE-B Housekeeping:	100.0 %
GRACE-A Science:	100.0 %	GRACE-B Science:	100.0 %

Level-1 Data Processing:

- Level-1B Release 02 instrument data have been processed at JPL and archived at GRACE-ISDC and JPL PO.DAAC. Please refer to the statistics below.
- RL02 Notes:
 - On 2012-09-25 at 13:08:20 the GRACE-A ACC was powered off to reduce the battery load. At 11:35:07 the GRACE-B ACC was powered off to reduce the battery load.
 - For 2012-11-01 till 2012-11-04 see note 2012-09-25
 - On 2012-11-05 GRACE-A ACC was powered on at 10:15:39. The GRACE-A ACC biases stabilized on 2012-11-09 00:00:00 UTC
 - On 2012-11-06 GRACE-B ACC was powered on at 08:03:39. The GRACE-B ACC biases stabilized on 2012-11-10 00:00:00 UTC. See Note 2012-11-05
 - For 2012-11-07 and 2012-11-08 see notes 2012-11-05 and 2012-11-06
 - For 2012-11-09 see note 2012-11-06
 - On 2012-11-22 18:02 a GRACE-B autonomous KBR restart tracking loop command resulted in a linearly increasing time tag error on the Ka-phase measurement. A GRACE-B IPU reboot cleared this problem on 2012-11-23 19:10:01. The Ka data was corrected and the KBR1B data passed all data quality tests. The user is advised to examine the data quality during this time interval. The SDS data considers the corrected KBR1B data nominal.
 - For 2012-11-23 see note 2012-11-22
 - KBR statistics:
 - A) KBR1B product name
 - B) Total arc length with data (hours)
 - C) Number of observations used in residual calculation
 - D) KBR-GPS range residual RMS (cm)
 - E) minimum KBR-GPS range residual (cm)
 - F) maximum KBR-GPS range residual (cm)
 - G) number of continuous segments in the KBR product

Following JPL RL02 L1B products are publicly available (green). June and July 2002 and June 2003 (red) are not provided due to accelerometer problems. For several months a significant number of Level-1 data is not available (blue): January and June 2011 (accelerometer data), May 2012 (accelerometer and K-Band data). RL00 and RL01 production has stopped with December

Level-2 Product Generation and Distribution:

Besides historical RL00 till RL04 time-series (see below) the following RL05 L2 products are presently available to the public (green: available, yellow: in preparation; red: missing due to accelerometer data or accelerometer and K-band data (October 2012) problems):

- **GFZ RL05:** GSM solutions are available for January 2003 until September 2012. Corresponding background GAA, GAB, GAC and GAD products and calibrated errors (GSM*.txt) have been provided too. Details are listed in the GFZ L2 Release Notes.

GFZ RL05	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2002												
2003												
2004												
2005												
2006												
2007												
2008												
2009												
2010												
2011												
2012												

- **CSR RL05:** GSM solutions along with the GAC and GAD background model files are available for the period January 2003 until September 2012. So far no calibrated errors (GSM*.txt) are available, but will be provided later. Note that CSR has put zeroes in the GSM files in fields that contain the formal errors. Details are listed in the CSR L2 Release Notes.

2003												
2004												
2005												
2006												
2007												
2008												
2009												
2010												
2011												
2012												

- GFZ and CSR have stopped RL04 processing end of April 2012
- JPL has stopped RL04 processing end of January 2012
- GFZ has stopped RL03 processing (Feb 2003 until Jan 2007 available at the archives. For further details refer to the GFZ RL03 release notes for Level-2 products).
- CSR has stopped RL01 processing. (Apr. 2002 until Dec 2006 available at the archives. For further details refer to the CSR RL01 release notes for Level-2 products).
- JPL has stopped RL02 processing (January 2003 until November 2005 available at the archives. For further details refer to the JPL RL02 release notes for Level-2 products).
- TN05/TN07 containing C20 estimates derived from SLR and using GRACE RL04/RL05 standards is periodically updated.

Miscellaneous:

- The Joint GRACE Science Team Meeting 2012 and Final Colloquium of the DFG Special Priority Program SPP1257 "Mass Transport and Mass Distribution in System Earth" took place at the German Research Centre for Geosciences in Potsdam between September 17 and 19, 2012. The proceedings and further information can be found at <http://www.gfz-potsdam.de/portal/gfz/Neuestes/Veranstaltungen/Tagungen+und+Konferenzen/2012/GRACE+Meeting>.
- Lecture material from the 2011 summer school of the DFG Special Priority Program "Mass transport and mass distribution in the system Earth" can be downloaded at www.massentransporte.de. Before using, please read the agreements on the cover page.
- The following acknowledgement shall be added to any new GRACE related publication (paper, poster etc.): *Acknowledgement: We would like to thank the German Space Operations Center (GSOC) of the German Aerospace Center (DLR) for providing continuously and nearly 100% of the raw telemetry data of the twin GRACE satellites.*
- A list of GRACE related publications which can be sorted by author or date is available at http://www.gfz-potsdam.de/portal/gfz/Struktur/Departments/Department+1/sec12/projects/grace/grace_publications (current status: 982 papers). This list maybe still incomplete. If you

are missing a publication please send an e-mail to Frank Flechtner (flechtne@gfz-potsdam.de).

- Science data users are encouraged to submit citations of their own and other works related with GRACE to the bibliography web page implemented at PO.DAAC: <http://podaac.jpl.nasa.gov/grace/bibliography.html>.
